SCREEN

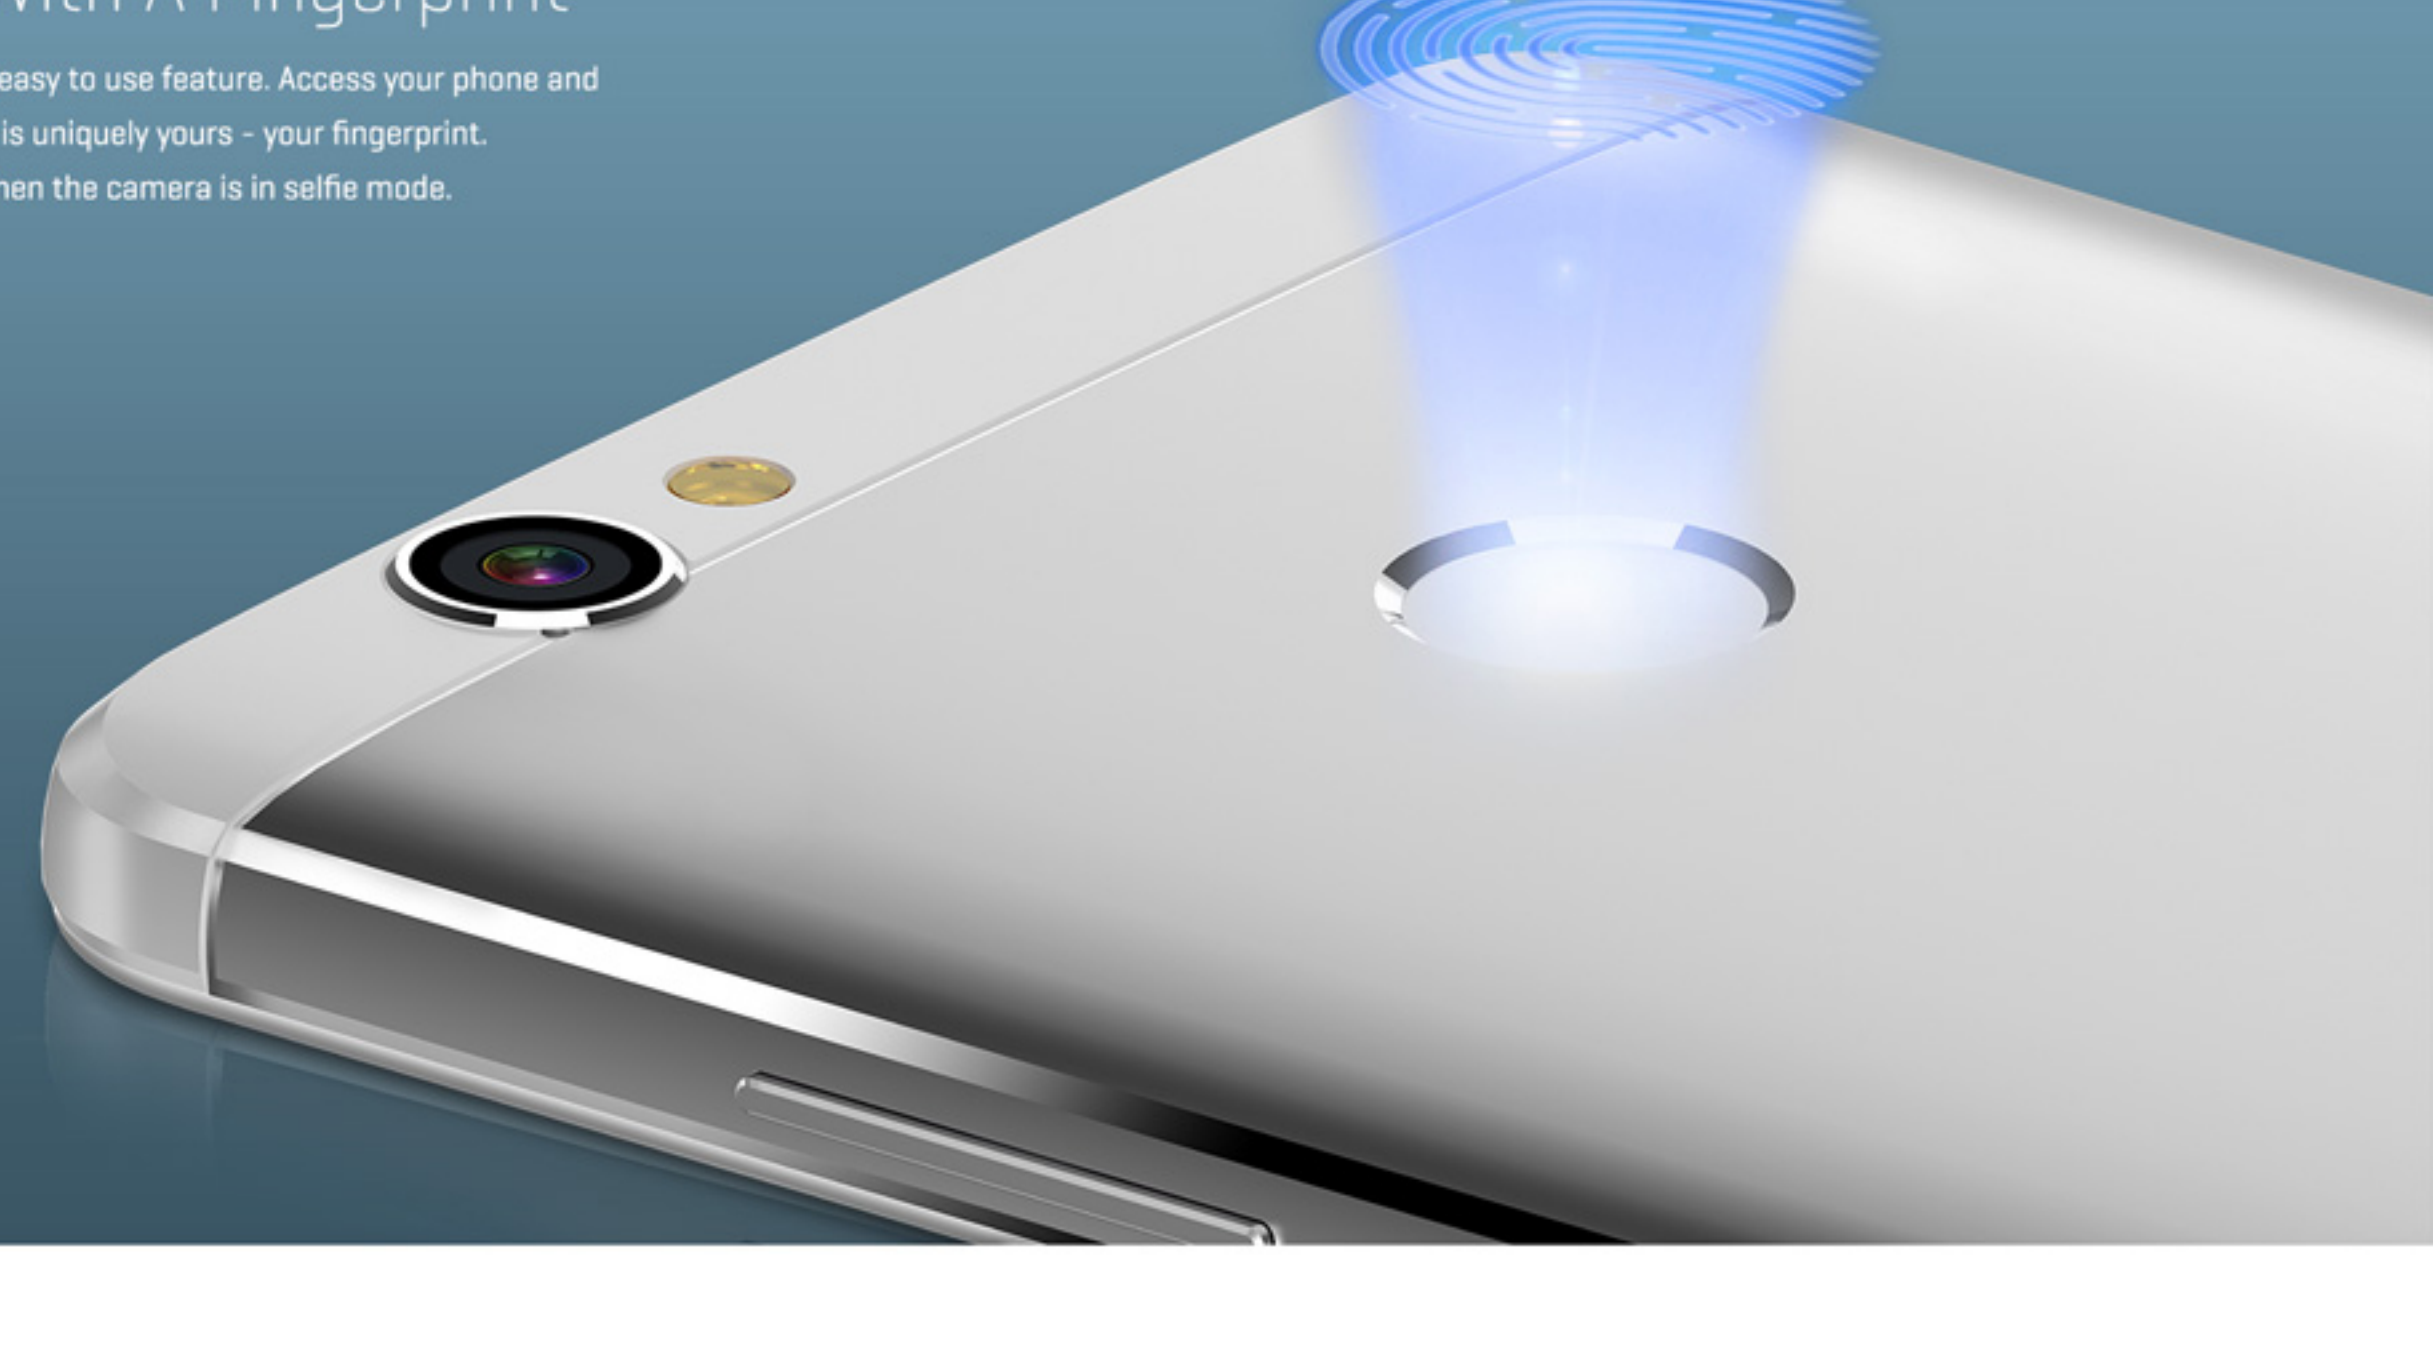

## Full Featured 13MPx Sony Camera

The 13 MPx camera has features like Burst Mode, Picture in Picture/Video in Video, Panorama, and HDR Mode. Take phenomenal selfies using the 5 MPx front facing camera with LED flash and next level Beauty Mode to hide those little imperfections.

## Unlock Your Phone With A Fingerprint

Passwords can be a thing of the past with this easy to use feature. Access your phone and other secured apps easily with something that is uniquely yours - your fingerprint. The fingerprint sensor will also snap a photo when the camera is in selfie mode.

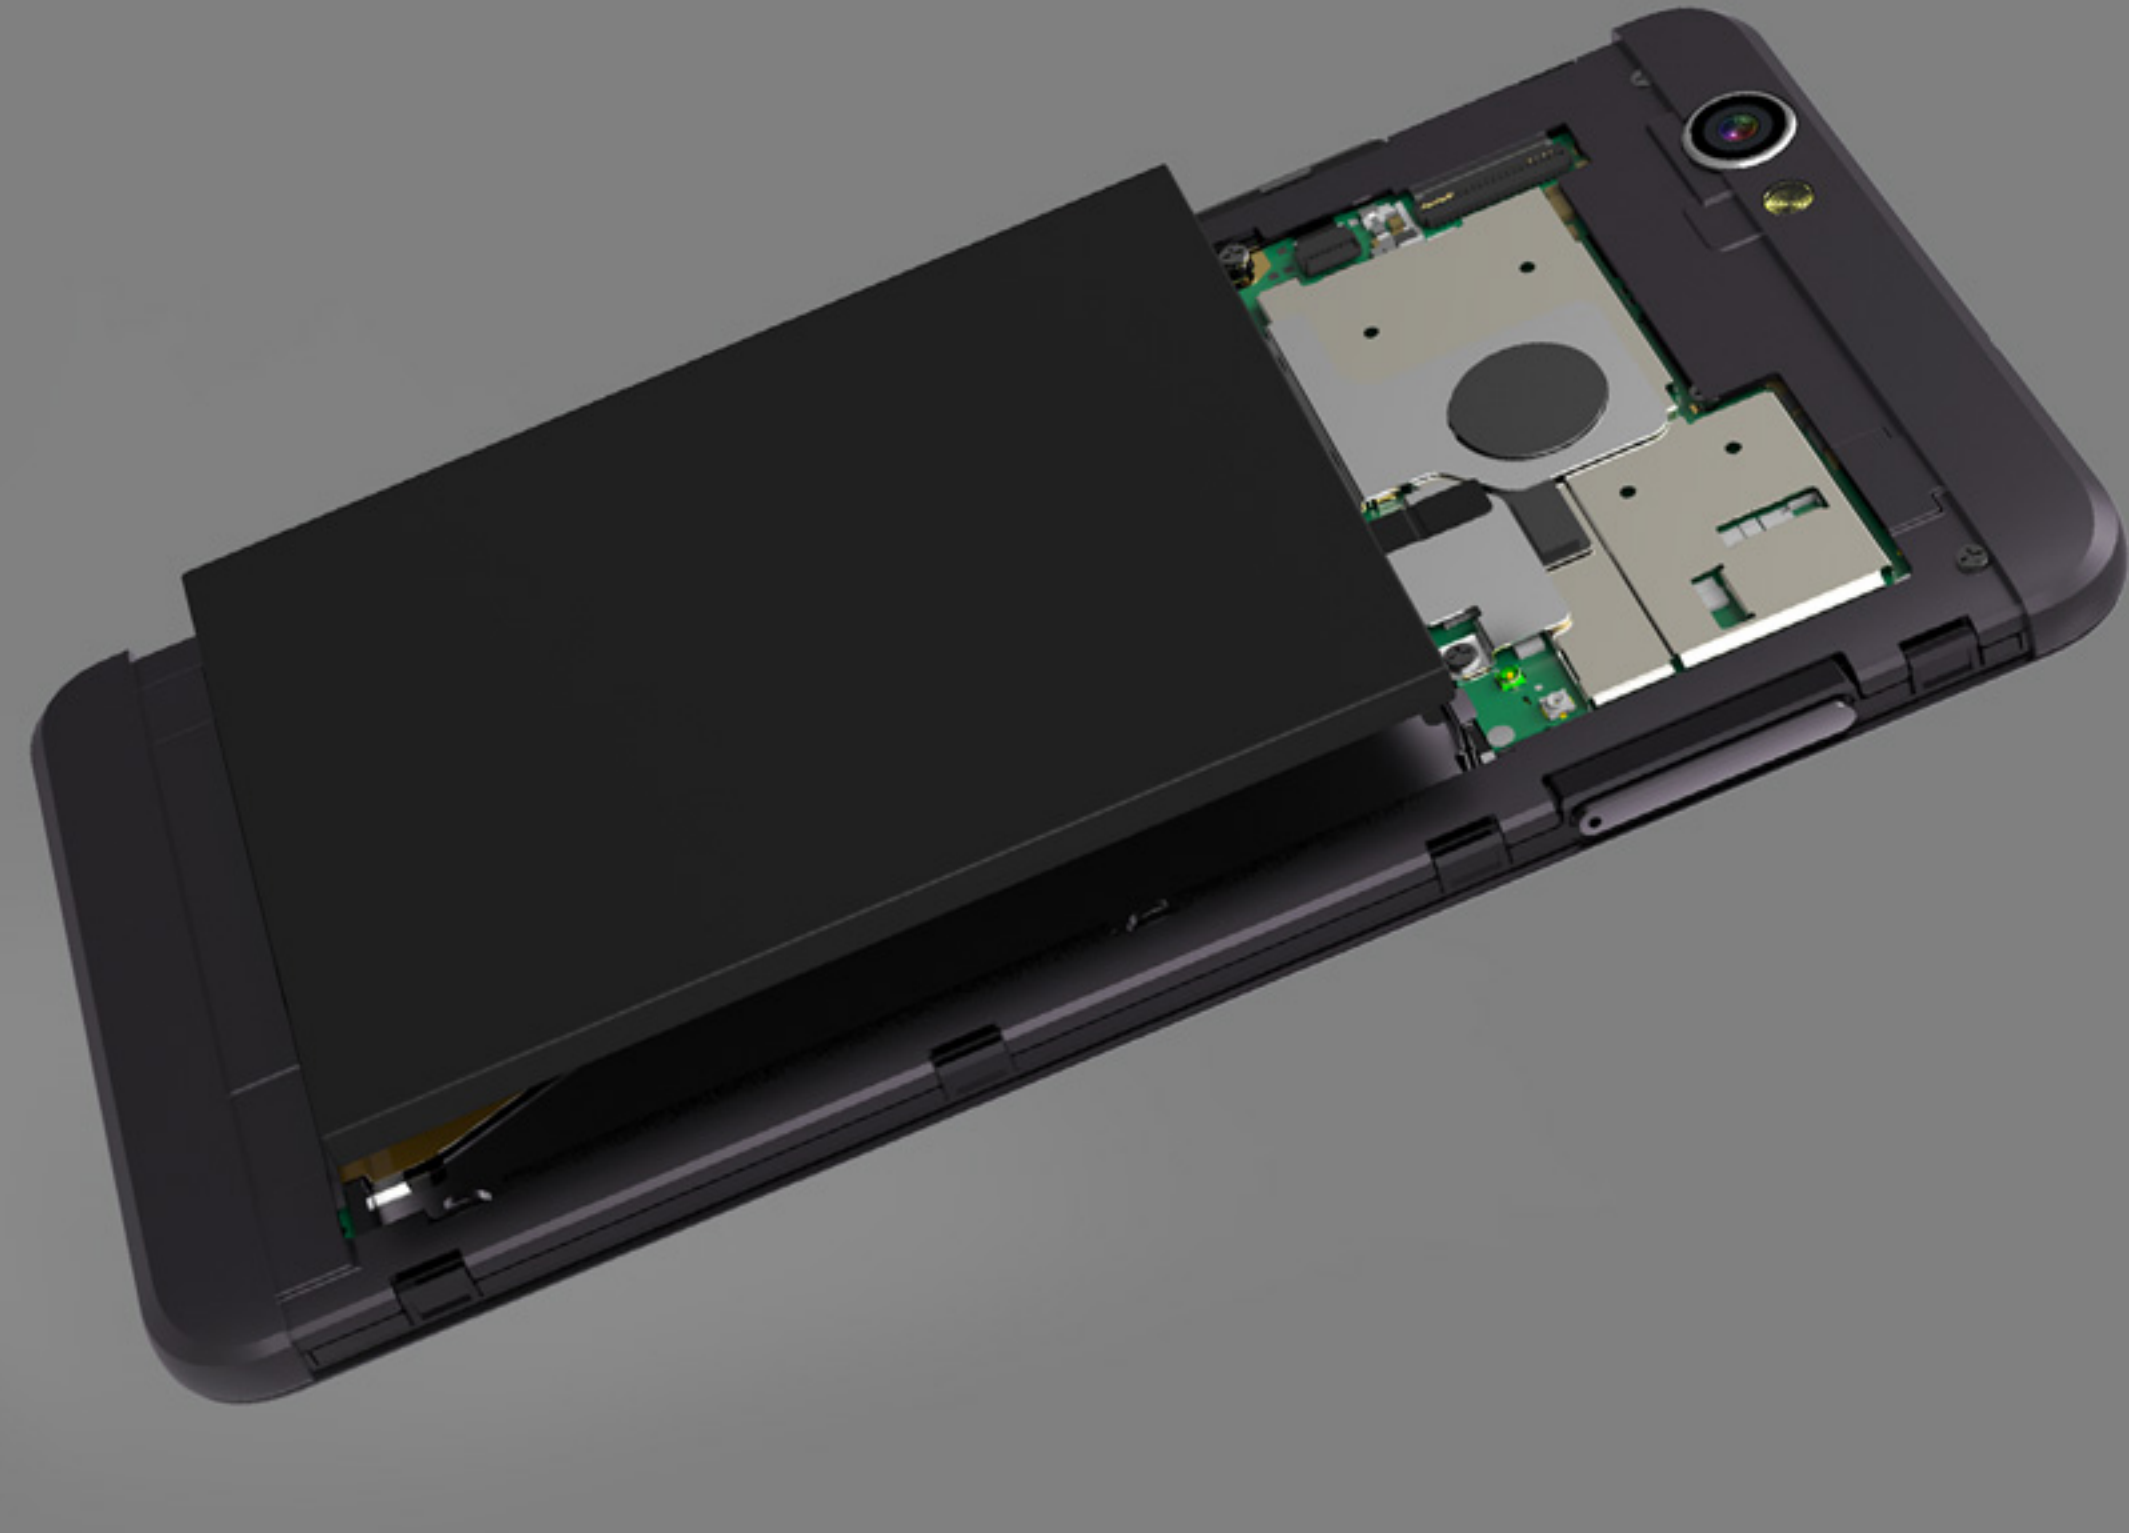

## Smart Wake Gestures

With Smart Wake enabled on the NUU X5, access to the most frequently used applications is quick and easy. Simply tracing a letter on the touchscreen allows quick access to a number of applications such as the camera, Chrome, calculator and the alarm clock. The Smart Wake feature can also be customized to easily access frequently used applications such as WhatsApp, Spotify or YouTube.

## Fast Charging 2950 mAh Battery

Passwords can be a thing of the past with this easy to use feature. Access your phone and other secured apps easily with something that is uniquely yours - your fingerprint. The fingerprint sensor will also snap a photo when the camera is in selfie mode.

## Dual 4G LTE SIMs & Expandable Storage

Dual SIMs will allow you to have two phone numbers in one phone. No need to carry more than one phone to keep your work life and home life separate again or keep use this feature to make traveling abroad easier. The X5 smartphone also allows you to expand your storage capacity up to 128 GB.
